## OVERVIEW

Gasherbrum, which derives its name from "shining wall," is situated at the head of the Baltoro Glacier. It is part of the greater Gasherbrum group, consisting of six peaks in the Karakoram range, two of which reach heights over 8000m. Gasherbrum I (G1) and Gasherbrum II (GII) rank as the world's 11th and 13th highest mountains, respectively. Among the fourteen 8000ers, Gasherbrum II is regarded as one of the more accessible and straightforward peaks. With proper resources, preparation, and favorable weather conditions, climbers on its normal route enjoy reasonable summit success rates.

**Pre-requisite experiences (at least two+ 6000M & 7000M + multi-pitch climbing & ice climbing):** *Lobuche East & Island Peak, Chulu West, Khumbu 3 Peak expeditions, Mt. Blanc, Baruntse peak, Himlung Himal, Ama Dablam. (Similar 4000M - 6000M peaks or higher), multi-pitch climb (rock or ice), rock climbing grade up to 5-9+/- to 5.10 a,b,c, and Ice climbing WI-3 to WI-4.*

Historically, in 1856, Thomas George Montgomerie, a lieutenant in the British Royal Engineers and a member of the Great Trigonometric Survey of India, observed a cluster of prominent peaks in the Karakoram from a distance of over 200 km. He assigned them names, using the designation "K" for Karakoram. Today, Masherbrum is known as K1, Gasherbrum IV as K3, Gasherbrum II as K4, and Gasherbrum I as K5. The only peak to retain Montgomerie's name is K2, the second-highest mountain globally. Broad Peak did not receive a K-number as it was concealed from Montgomerie's view by the Gasherbrum group.

## Expedition Highlights

- G2 and G1
- South-West ridge route, Camp 1, 2 and 3 strategy
- 24 days in Gasherbrum base camp 5300M and higher
- 1:1 Nepalese Sherpa Guide/Climber ratio during Summit Climb
- Karakoram valley, and Gilgit–Baltistan

## Expedition Strategy

The **South-West Ridge route** of Gasherbrum II is a straightforward climb that primarily involves traversing snow-covered terrain. G2 is a perfect climb for any high altitude mountaineering enthusiast that seeks a safer climb with out the steepness of Broad peak and relatively less technical and mixed climb as G1. Most of the high camps are place in a flat section which are safer from avalanche-prone areas. Namas team follows the following strategy for G2 expedition

- **Gasherbrum Base Camp 5300M - Ice fall to Camp 1 (5900M). Time 7 - 8hours**
- **Camp 1 (5900M) - Camp 2 (6,550M). Time 5 - 7 hours**
- **Camp 2 - Camp 3 (6900M). Time 6 - 8 hours**
- **Camp 4 (7300M) - Situational**
- **Camp 3 or Camp 4 to G2 Summit 8035M. Time 10+ hours.**
- **Back to Camp 2 from the summit and base camp the next day**

## NAMAS ADVENTURE

### SKILLS REQUIRED

Climbing the *Gasherbrum's* is for enthusiast climbers who aims to go high into 8000M+ in the Karakoram region. You will need your fitness and climbing skills to be able to look after yourself for long hours during the climb according to terrains. You should be able to take care of yourself even during the though climb session, eating well and staying hydrated from the start of the expedition, making sure your gears are in check and functional during the climb. Your Sherpa expedition leader will guide and motivate you throughout but a lot of the effort lies within your ability to climb and you will be liable to yourself.

The more experience you have rock climbing tougher routes in different types of rock the better it is for you to get familiar with climbing and adjusting during the expeditions.

**Abseiling:** This is the simplest yet the one of the most important skills to master. Some multi - pitch abseiling knowledge/experience are also required

**Climbing on different terrains:** Slab rocks, vertical rocks. Scrambling on steep terrains.

**Use of Crampons and Ice axe:** Winter ice climbing or mountaineering courses are recommended. You should be able to kick step and balance with ice axe on icy slopes to ascend on vertical climb. Ice arrest skills to save your self incase of slips or fall, being comfortable while descending and abseiling on crampons in all the terrains.

**Climbing in Altitude:** Your prior experience in climbing should give you a good understanding of your body coping in the altitude. You will be liable to yourself so it is best to build you fitness up to the best level. Our itineraries are designed to be able to help you with proper acclimatisation but you will also have to be aware of your eating pattern and staying properly hydrated.

## **NAMAS ADVENTURE**

### **Guides /Sherpas. Ratio : clients. Qualification and level of English**

On this expedition we aim to have max 8-10 climbers, we have 1 Main guide who will be IMFGA / NMA certified. But we believe that Nepalese IMFGA certified guides are more than capable in this day and age and have an excellent level of English. We are committed to responsible tourism and want to enhance and prioritise local Nepalese leaders first, but if the clients request a western guide personally then we can have that arranged. Sherpa ratio 1:1. Our Sherpas are NMA ( Khumbu climbing center trained/certified ). Additional Personal Sherpa for 1:1 can be arranged who will be solely responsible for the clients but extra additional charges apply. Our Sherpas have an intermediate level of English. Can understand, reply and instruct very well.

### **Tips for our guides and porters.**

Most of our guest gives tips during the end of the trek. Your booking payment already consist a tip pool of \$1000. Your guide leader will fairly distribute the tips among your drivers, assistant guides and porters. Guest also donates trekking equipments like jackets, trek poles, gloves or hats to porters which is greatly appreciated. Guest can also buy our porters dinner, during the final day of the trek for all their hard work and for making their trek possible.

# NAMAS ADVENTURE

## ALPINE GRADING

**1 or F:** Easy These routes involve easy glacier travel and may require some rock scrambling. Except for the glacier sections, you can often climb rope less.

**2 or PD:** a little difficult. These routes involve some technical climbing sections and glaciers of higher difficulty. There may also be some short sections of steep terrain. They are good introductory climbs for beginners.

**3 or AD:** Fairly hard. These are physically demanding routes for experienced alpine climbers. They usually have steep and exposed climbing sections or snow/ice slopes over 50°. The descents are long and more complicated, and most of the route requires to be roped.

**4 or D: Difficult:** These routes involve sustained rock climbing, ice climbing or snow travel. They are considered a significant undertaking and demand a huge commitment.

**5 or TD:** Very difficult. Highly technical climbs that involve long distances, remote locations, and hard multi-pitch climbing sections. Besides, there are often other hazards like bad weather (extreme cold, strong winds) or poor protection on the routes.

**6 or ED:** Extremely difficult. These are extreme climbs (the most difficult in the world, actually!) with continuous difficulties. They take several days to be completed.

## FITNESS GRADING

**A -** Fitness level to be able to enjoy multi day walks of 6-7 hours per day. Should be able to carry 5-8kg of weight during the activity days.

**B -** Good level of cardio-vascular fitness and strength fitness needed. Can train by running or cycling 30+ min 3/4 times a week combined with some gym session of endurance or lower body straightening. Should be able to carry 10kgs during the activity day.

**C -** High level of fitness level required both in strengthening and endurance fitness level. Should be able to carry 8 -12 kgs of load. Training or gym sessions are required to attain this level of fitness. Previous experience of multi-day hill walking is essential.

**D -** Exceptional level of all round fitness will be required to cope with the exceptionally strenuous nature of these expeditions. Experience is required to be able to take on tours of this physical grading.

**E -** Exceptional level of all round fitness coupled with ability to cope and resist in highest of the altitude. A resistance to extreme weather conditions over extended periods of time. Heavy loads over multiple days may need to be carried. Previous experience is highly crucial in order to prepare your body endure the high level of mental and physical toughness from both altitude and terrains.

## **Expedition Fitness**

When it comes to expedition the more fitter you are and more stronger the better your chances of successfully climbing to the summit and most of all enjoying the expedition. The grading system gives you an indication of the level required for each expedition both technically and physically. It is very important that you train and build your level of fitness depending on your choice of expedition and whilst on expedition if your fitness is deemed to be inadequate our leaders would ask you to remain at camp. Please discuss with our guiding leaders on how you feel and weather you can actually make that push during all climbing/expedition, as we take your and staff safety seriously and would not want any unchecked incidents or miss out on your successful summit bid.

## **Adventure Travel – Accuracy of Itinerary**

It is on our best interest to operate our expeditions as printed in the itinerary but due to unseen circumstances it may be necessary to make some changes as a result of flight schedules, climatic conditions, limitations of infrastructure or other operational factors. As a consequence, the order or location of overnight stops and the duration of the day may vary from those outlined. We would ask for your patience in this case as a lot of these can be out of our hands and we will best decide to plan alternatives. Our assigned leader is responsible for the overall safety of the whole team during the expedition and will encourage the use of safe climbing practises during the expedition. They will ensure that every opportunity is taken to fulfil the objectives described in the trip's outline itinerary, but have the freedom to modify any plans subject to weather, delays or unforeseen circumstances which are deemed to be out of the control of Namas Adventure. The leader will maintain a good team spirit and attempt to keep morale high for the whole group. Wherever possible the leader will keep the Namas Adventure office informed of team progress and any emergency situations that may arise.

### Insurance

All our clients are required to have adequate insurance for their trip programs. When conducting research for insurance options, please look into the details of the policies covering the right requirements. Unexpected life events occur. Your travel plans might change due to illness while you are abroad or because of a family emergency even before you leave home. Our recommendation is that you protect your investment and welfare against these unexpected circumstances so you and your loved ones can prepare for your upcoming adventure with more peace of mind.

- **Cancellation or curtailment**
- **Helicopter rescue**
- **Repatriation**
- **The altitude that you are expected to attain**
- **Grade of trek/climb/expedition**
- **Medical cover**
