Endurance 60% / Strength 40% (Training Volume)

Other Endurance activities: Cycling, rock climbing, bouldering, swimming, uphill skiing.

Strength and Muscular endurance activities: Other gym workout sessions focusing on muscle endurance and strength can be incorporated.

Rest and Recovery: 8 hours of sleep every day is recommended. Stretching sessions before and after each workout session. Incorporate Foam roll exercises once a week. Cold shower for muscle recovery. Yoga can also be implemented.

FOCUS. DISCIPLINE. DON'T GIVE UP. BELIEVE YOU CAN AND YOU ARE HALF WAY THERE
